Sonora Mining & Development Company

On Tuesday, June 1, 1909, I shall offer on the Boston Curb One Hundred Thousand shares of the stock of the Sonora Mining & Development Company at is well finished with hard wood floors in the lowest possible price at which this stock can be secured, namely,

53 Cents a Share

This stock has been active on the Boston Curb for the past few months, between 61 and 74 cents. Many investors complain that they are not given the opportunity of securing shares in a company upon the ground-floor basis.

This Is Your Opportunity

and I submit a few important facts for your consideration before investing. This Company owns and operates the only custom smelter in the State of Sonora, Mexico:

Every share of stock issued has been paid for,

to the public.

The Sonora Mining Company owns the city of Toledo, Mexico, covering two square miles, including Stores, Dwellings, Hotels, Electric Light Plant, Hospital, Water Works, Mines, Smelter, etc., on which over \$550,000 has been expended. The mining properties owned by this Company are of immense value and situated in the richest mining district in the world.

There are no outstanding bonds or preferred stock; every share of the mmon stock represents an ownership in this valuable property.

Enter your order with your broker at once, as no broker will be allowed to rehase over 5,000 shares at the starting price of 53 cents. I shall endeavor to complete the offering at this price, unless for some special reason this entire block of stock may be withdrawn from the market.

NOTE: In making the above offer, I wish to further state that there is no stock selling on the New York, Beston or Curb Exchanges to-day, which at its initial price shows, or has the value behind it—the possible earning power—the speculative possibilities-and the investment opportunities-that Sonora offers
